VISIRAIL 2000MM HIGH VISIBILITY GUARDRAIL PANEL

VISIFLEX 2000MM HIGH VISIBILITY GUARDRAIL PANEL

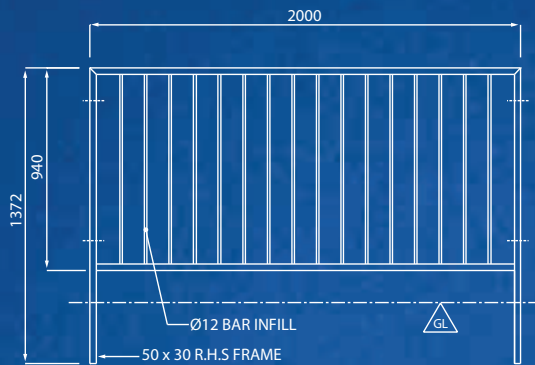

- Cantilever Panels**
for transparency and resilience
- Pivot Joints**
for transparency and resilience
- Stub Posts**
for damage resistance and ease of repair

Connected by high-strength, stainless steel bolts, these create a portal frame/torsion box structure in galvanized steel to eliminate the need for full-length posts.

GUARDRAILS

BEI offers a comprehensive range of pedestrian guard rail from stock. We use one of the UK's leading manufacturers of pedestrian guardrail, fully designed to BS7818 or BD52/93 for parapet.

We stock several variations of standard panels for ex-stock delivery. We can also supply job specific panels to meet exactly with your specific requirements.

All of our products are galvanised and can be supplied with additional protective coating systems such as powder coating or wet film applied paints using the latest technology and meeting the specification for Highway Works.
